Annuities are designed for long-term accumulation of money; surrender and withdrawal fees may apply on early withdrawals. Annuity withdrawals are subject to income tax, and withdrawals prior to age 59½ may also be subject to an IRS penalty. Holding an annuity inside a tax-qualified plan does not provide any additional tax benefits. If you annuitize a non-qualified annuity, a portion of your payment will be considered a return of premium and will not be subject to ordinary income tax. The amount that is taxable will be determined at the time you elect to annuitize the policy.
